

Research Study

Communicating News of Schizophrenia

Principal Investigator: Dr. Yulia Landa

Location: Icahn School of Medicine at Mount Sinai, Aron Hall, 50 East 98th Street, Suite 1B, New York, NY 10029

Study Description: The project is looking for mental health clinicians to share their past experiences with the discussion of diagnosis and prognosis with patients with schizophrenia. We are also seeking advice about ways we might educate doctors to improve communication with patients and families about their condition. Participation in this study will involve at one-time interview of 30-60 minutes.

If you are involved in delivering diagnoses of schizophrenia to patients and would like to participate in this study, please contact:

Dr. Yulia Landa or research coordinator, Rachel Jespersen:
